Education

The LNM Institute of Information Technology, Jaipur

May 2023 – Present

Bachelor of Technology – Mechanical and Mechatronics Engineering

CGPA: 8.86/10

Technical Skills

Languages: Python, C, SQL

Frameworks & Libraries: Django, FastAPI, NumPy, Pandas

Technologies: REST APIs, JWT Authentication, Backend Development

Tools: Git, Docker, MySQL, Postman, VS Code, PyCharm, Colab, Anaconda

Coursework: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Projects

Django Audit Logger ([Link](#)) | *Django, Python, Django Signals, PyPI*

June 2026

- Published a reusable **PyPI** package that automates CREATE, UPDATE, and DELETE audit logging across Django applications with **minimal integration effort**, receiving 150+ package downloads.
- Implemented **decorator-based model registration**, dynamic Django signal registration, and JSON-based field-level change tracking, eliminating the need for manual audit logging for each model.
- Built a Django admin dashboard featuring **filtering, search, CSV export**, and **field-level old-to-new value comparison**.
- Achieved **99% code coverage** by developing 10+ automated tests using pytest and coverage.py, ensuring package reliability.

Subscription Guardian ([Link](#)) | *Django REST Framework, PostgreSQL, Chrome Extension, JWT*

June 2026

- Built a full-stack Chrome Extension with a Django REST Framework backend, supporting automatic detection for **10+ subscription services** to simplify subscription and free-trial management.
- Developed and secured **9 REST API operations** across **2 database models** using JWT authentication and PostgreSQL, enabling secure CRUD operations with user-specific data isolation.
- Implemented an interactive dashboard with monthly and yearly spending analytics, **upcoming renewal and trial tracking**, search functionality, and category-based filtering.

Blog Management Website ([Link](#)) | *Django, HTML, CSS, SQLite*

June 2026

- Developed a blog platform with **user authentication, post creation, editing, and commenting** features using Django.
- Securely implemented **role-based access control** for authors and administrators across multiple application modules.
- Designed relational database models and integrated **CRUD functionality** using Django ORM and SQLite for persistence.

Experience

LNMIIT, Jaipur ([Link](#))

Jan 2026 – Apr 2026

Teaching Assistant – Introduction to Scripting Languages

- Mentored 80+ students in Python, Bash scripting, and ML fundamentals using Jupyter Notebook and Colab.

LNMIIT, Jaipur ([Link](#))

Aug 2024 – Dec 2024

Teaching Assistant – Basic Electronics

- Mentored 60+ students in electronics labs, clarifying circuit concepts and troubleshooting experimental setups.

Achievements

- Solved **400+ DSA problems** on [GeeksforGeeks](#) and [LeetCode](#).
- Achieved a **1800+ rating** on LeetCode through consistent participation in weekly and biweekly coding contests.
- Secured a perfect **10.0 SGPA** in the **4th semester** of the B.Tech. program at LNMIIT.
